GETTING STARTED

when you start using <u>AUDITOR:P-pro64</u> for the first time, you get a dummy/trial company to practice on (XX company code) we suggest you practice on the dummy/trial company, input trial entries for 2-3 days & get used to the working of the software *this dummy/trial company (XX) can be deleted later if/when not required* you can then later, create your own company, after getting to know the functioning of this app.

before you input billing

create client master (page:14) [clients on whom you raise bills] (ensure to input each client's state/gstn) create service type master (page:15) [different type of services you render to clients]

before you input vouchers

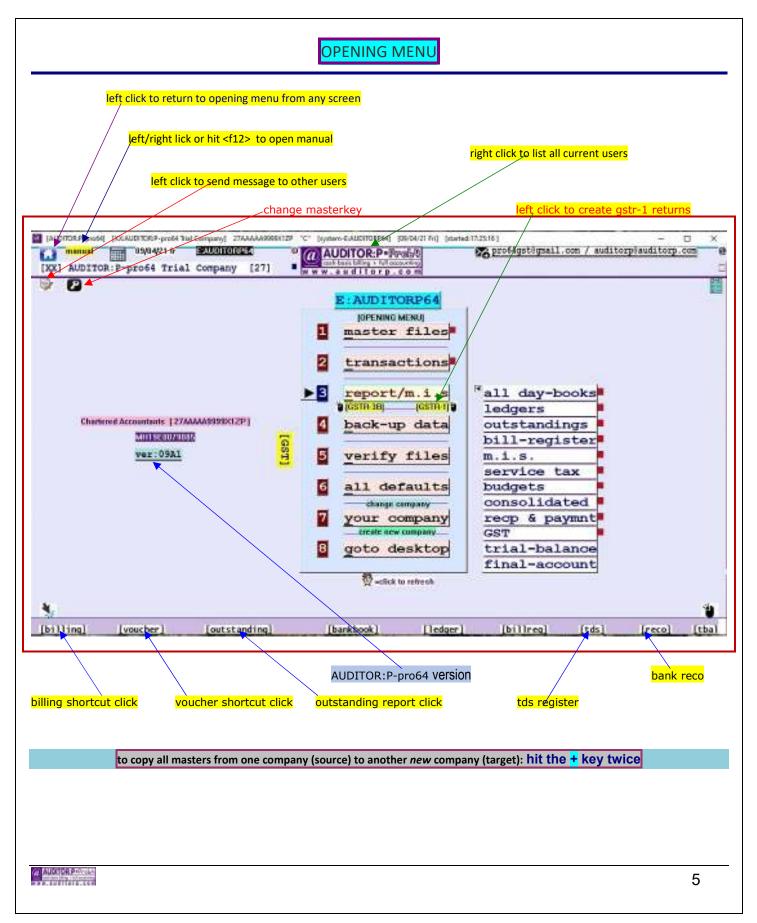

create ledger heads/account heads master (page:10-13) [account heads you debit/credit]

to create your company for accounting [Company Set-up] (page: 6)

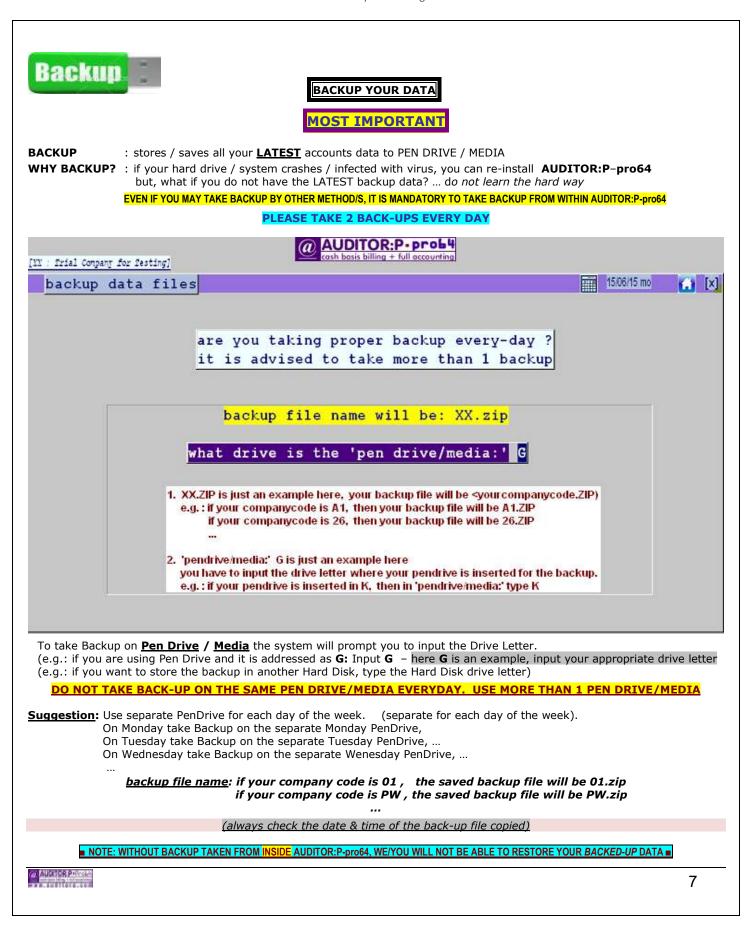

please read the entire manual to make optimum use of AUDITOR:P-pro64

SCHEDULES
It is a Group for Ledger/Account Heads that appear under a common Heading (Schedule). Schedules print in the Trial Balance & Balance Sheet. You can also print Schedule ledger. (When you create an Ledger/Account Head you have to input under what Schedule that Account Head Falls.)
Tr : frial Company for Festing]
schedules (X)
schedule 39 is just an example 12 account headsis also an example schedule no.: 39 schedule name: INVESTMENTS
12 account head/s fall under this schedule
e.g. You <i>may</i> have <u>Schedule 03</u> as Fixed Assets. You <i>may</i> have <u>Schedule 12</u> as Loans Received or Secured Loans or If you create an Account Head "Office at Fort" (from Ledger Head Master) – it could fall under <u>Schedule 03</u> . "Loans from HDFC" could fall under <u>Schedule 12</u>
SCHEDULE
Account Account Head 1 Head 2 Head 3
e.g.: If Schedule 72 is "OFFICE EXPENSES" you may have Account Heads as "Telephone Exp.", "Fax Charges", "Rent" etc under it.
Office Expenses (Schedule)
Telephone Fax Rent Expenses Charges
NOTE: Do NOT mix different type of ACCOUNT HEADS in a similar SCHEDULE: E.g.: Do NOT mix Conveyance & Building in a common Schedule.
We have pre-created a few Schedules that will be listed when you create a new Company You can over-write on the pre-created Schedules / change the hierarchy / create your own new schedules Schedules with nil/zero accounts heads under it, will NOT print in the Trial Balance / Balance Sheet
9

LEDGER HEADS/ACCOUNT HEADS	1 of 4
Create/Edit your Expenses & Other ledger heads from this screer	۱.
account head: LANDB LAND AT BKC-NEAR ICICI	account head: ELECT ELECTRICITY CHARGES
opening bal.: -235000000.00 account type:b/s	opening bal.: 0.00 account type:p&l
schedule: 9 is just an example	schedule:13 is just an example
schedule : 9 FIXED ASSETS	schedule :13 OFFICE EXPENSES
schedule :9 is just an example here	schedule :13 is just an example here
How to create a new Ledger/Account Head Assign a new Ref. (alias) to the Ledger/Account Head. (YOU DO I Ref. (alias) can be Alpha Numeric or Numeric or Alpha. Now input the Ledger/Account Head Description, Account Type, S NOTE: Ref. are input only when creating a NEW LEDGER/ACCOUNT	Schedule. Save your inputs. New Account Head has been saved.
All ledger heads created will be listed. Select from the list LEDGER/ACCOUNT HEADS are selected by their descriptio	on the screen. You do NOT have to remember the Ref. (alias).
 Opening Balance of new Ledger/Account Heads may be entered. While creating a new Head determine if the Ledger/Account Head Each Ledger/Account Head falls under a particular Schedule e.g.: 1) Shares Of ACC, TISCO, RELIANCE may fall under. Schedule 24 : INVESTMENTS (Schedule 24 is just an New Schedule are created from the Schedule Master. 2) Xerox Expense, Telephone Expense, Conveyance may Schedule 72 : OFFICE EXPENSE (Schedule 72 is just In the Trial Balance each Schedule will be printed with its Ledger, If you are not sure of the Schedule, group the Head under a Schedule How to edit a existing Ledger/Account Head field, Right click or press 	d falls in <u>Profit / Loss</u> or <u>Balance Sheet</u> . This can be edited. Ile. n example here). fall under. : an example here). /Account Heads. edule: "NOT DECIDED". This can be changed later.

LEDGER HEADS/ACCOUNT HEADS [

[predefined ledger/account heads]

2 of 4

Account Heads/Ledger Heads Pre-Defined

We have pre-created some Ledger/Account Heads in the Ledger/Account Heads Master. do not recreate/duplicate these heads. You may however change the description of the pre-created Account Heads as per your recognition.

Tou may nowe	the the description of the pre-created Account heads as per your recognition.
<u>Ledger</u>	
Account Head	d Default Description (you can change the default description to your own descriptions)
CCCCC	Cash
CCCCP	Petty Cash
RESER	Capital Account. [when you close books, the profit amount Is auto transferred to 'RESER' Account Head]. [For partnership firms: You can create your own Capital Account Heads for different/all Partners]
TDS	TDS Deducted <u>By Client</u> (all auto tds voucher amount is debited/accumulated to TDS)
TDS++	TDS Deducted <u>By Us</u> (when you make certain type of payment & you deduct TDS)
STAX -	Service Tax Collected (all auto service collected voucher amount is credited/accumulated to STAX-) (see page:31)
SALAR	Salary paid by you
GST-	GST (this account can be <u>auto credited</u> when your bill payment is recd) (you should debit this head to make payment for GST)
SGST- CGST-	SGST CSGT
IGST-	IGST
UGST	USST
PROF1	STATUTORY AUDIT FEE RECD (this description can be changed to meet your description)
PROF2	INCOME TAX FEE RECD (this description can be changed to meet your description)
PROF3	CONCURRENT AUDIT FEE RECD (this description can)
PROF4	TAX AUDIT FEE RECD (this description can)
PROF5	BANK AUDIT FEE RECD "
PROF6 PROF7	DIRECT TAX FEE RECD INDIRECT TAX FEES
PROF8	SALES TAX FEE RECD
PROF9	OUT OF POCKET RECOVERED
PROFA	INTERNAL AUDIT FEE RECD
PROFB	ACCOUNTS WRITING FEES RECD
PROFC	CERTIFICATION FEE RECD (1)
PROFD	CERTIFICATION FEE RECD (2)
PROFE PROFF	APPEALS <i>bef.</i> CIT FEE RECD APPEALS <i>bef.</i> ITAT FEE RECD
PROFG	CONSULTANCY FEE RECD
PROFH	PROJECT REPORT FEE RECD
PROFI	DRAFTING DOCUMENT FEE
PROFJ	TRANSFER PRICING FEE RECD
PROFK	DUE DILIGENCE FEE RECD
PROFL	M & A FES RECD
PROFM PROFN	FEMA FEE RECD ROC WORK FEES RECD
PROFO	OTHER FEES RECD
PROFY	NON S.TAX FEES RECD:1 (credit PROFY or PROFZ when you receive fees for bills that do NOT include S. Tax)
PROFZ	NON S.TAX FEES RECD:2 (credit PROFY or PROFZ when you receive fees for bills that do NOT include S. Tax)
DESCRIPTION	N OF ANY PROF THAT ARE PREDEFINED CAN BE EDITED TO MEET YOUR DESCRIPTION FROM: MASTER FILES-LEDGER HEADS
i.e. vou can e	edit PROF3 which is 'CONCURRENT AUDIT FEES RECD' & change it to 'LOAN PROPOSAL FEES' or anything
	edit PROF7 which is 'INDIRECT TAX FEES' & change it to 'PROPERTY DOCUMENTATION' or anything
you can e	edit PROFL which is
	LY EDIT THE DESCRIPTION OF ANY 'PROF' THAT HAS NOT <u>YET</u> BEEN USED/CREDITED IN VOUCHERS
NOTE: You k	have not <u>yet</u> used 'PROFH' in vouchers, you can edit it's description (PROFH is just an example here)] have to always credit any one of the 'PROF' (i.e. PROF1, PROF2, PROFA) when you receive fees from client
NOIL. IUUI	ave to always creat any one of the FROI (i.e. FROI I, FROEZ, FROEA) when you receive rees from chent

IF BILLING IS FROM YOUR COMPANY 'A' & PAYMENT IS RECD BY YOU IN YOUR ANOTHER COMPANY 'B' E.g.: You had raised a Bill No. 9877 - amount 1000 - on Client ABC from your Company 'A' The client pays the bill, but issues the cheque in the name of your another Company - Company 'B' In Company A Step 1. You have to credit the Client ABC Create a JV: Credit : **ABC** (the client) (here ABC is just an example) : DUMMY (DUMMY is the pre-defined account head) Debit Amount : 1000 Step 2. You have to debit Company 'B' { First create an Account Head for Company 'B' (e.g. 'COMPB' or whatever code...) from the Account Heads Master } Now create **another** JV: Credit : **PROF1** (here PROF1 is just an example, input your relevant PROF) Debit : COMPB (i.e. your Company 'B' - COMPB is just an example here) Amount : 1000 Type in the appropriate narration Step 3. You have to mark the Bill 9877 as paid - so it does not appear in Outstanding Open bill no. 9877 (from Billing module) Right click / Edit 'AMT.RECD' field Input **1000** (if any other amount is <u>already</u> existing there, add 1000 to it) In Company B You have to credit Company 'A' First create an Account Head for Company 'A' (e.g. 'COMPA') from the Account Heads Master Create a Bank Receipt Voucher : **BANK** (your bank - where you deposit the cheque) Debit Credit : COMPA (i.e. your Company 'A' - COMPA is just an example here) Amount : 1000 Type in the appropriate narration IF BILL IS ON CLIENT 'A' BUT THE PAYMENT OF THAT BILL IS MADE BY CLIENT 'B' Example A6 E.g.: You have raised a Bill No. 123 - amount 1000 - on Anil Anbami You have raised a Bill No. 456 - amount 3000 - on Mukesh Anbami The payment for both the bills (123 & 456) is made to you by 'Mukesh Anbami' i.e. Paid amount : 4000 Make 2 separate Bank Receipt vouchers In the first Bank receipt voucher input the amount as 1000 Select Anil Anbami as the Client Choose-n-pick Bill No. 123 & mark it as paid. In the second Bank Receipt voucher input the amount as 3000 Select Mukeshl Anbami as the Client Choose-n-pick Bill No. 456 & mark it as paid. UDITOR P+ 20

VOUCHER	(TDS Entry) when the Client deducts TDS
manual TDS Entry when client deducts TDS (fo	or i.tax or against gst) (against any existing bill <u>or</u> to be billed later)
<u>Usually</u> a TDS entry can be <u>auto created</u> when receivin If you want to <u>manually</u> pass a TDS entry OR	ng Prof. Fees from a Client. (if the Client has deducted TDS)
	n (or any date) & payment of your bills will/may be made later/next f.year or adjusted against any bill – the TDS voucher will be marked as <u>U</u> nAdjusted <u>TDS</u>)
steps to make a TDS voucher when a client deducts TDS	
4. Enter the TDS amount.	-defined codes for different type of Professional Fees Received)
 now the system will prompt 'is this tds again Select the Client (from popup window) who is a All Bills pertaining to the Client will be listed. Cha (you may/may not have created a bill <u>yet</u> in that 	deducting the TDS. pose-n-Pick the Bill/s against which this TDS amount is deducted.
In Account Books, this will have a three way effect	DEBIT : TDS CREDIT : CLIENT CREDIT : PROFESSIONAL FEESS. (i.e. PROF1 or PROF2 or PROFA or)
It will be shown/marked as UTDS	ny bills, the TDS REGISTER will show a 🖁 (star) mark against this entry. (unadjusted tds amount) in the voucher screen/reports. TDS amount against any bill/s, just open that voucher again.

Var AUCHICK PROVIDEN	21

	VOUCHER	
	Example A the cheque the client gave you has been returned by the bank / dishonored	
Ϋ́Υo	ient ABC has paid you Rs. 10000 against Bill # 123. nu have created a Bank Receipt Voucher (e.g.: V.No A58245) and adjusted the amount against Bill No. 123 w, the cheque has been returned /dishonored	
	either cancel the Bank Receipt Voucher (A58245) by making the amount 0 (zero)	
OR Step 1	Create a Bank Payment Voucher Credit : Bank	
	Debit : The relevant PROF (i.e. if you had received fees against 'PROF1' – debit PROF1)	
	(i.e. if you had received fees against 'PROFA') Amount : 10000 this payment voucher will reduce your income (which was increased when you made the Bank Receipt Voucher A58245 earlier)	
<u>Step 2</u>	Now, the Client also has to be debited. Create a Journal Vocuber ('K' Type) Credit : DUMMY (always credit DUMMY only) Debit : Client ABC Amount : 10000	
Step 3	In the Billing module - Go to Bill # 123 & edit AMT.RECD (right click on it) <i>Reduce</i> the AMT.RECD field by Rs. 10000	
	Example B If a client has paid excess amount than the bill amount & the excess amount has to be returned to that client	
0	ou have raised a bill no. 456 on client XYZ. Bill amount : Rs. 10000 ie client XYZ pays you Rs.12000 against that bill no. 456	
W	hen you create a Bank Receipt voucher (e.g. No. 51520) for the Rs. 12000 recd., you can adjust only Rs. 10000 against Bill 456 e excess Rs. 2000 will be shown as ' On-Account'. The client ledger will show 2000 Cr.	
	<u>u want to return to the client the excess Rs. 2000</u> Create a Bank Paymen t Voucher (e.g. Voucher No. 54123) (V.no. 54123 is just our example, you have to input your own voucher no.) Credit : Bank	
	Debit : The appropriate 'PROF' (i.e. if you had received fees (of bill#456) against 'PROF2' – debit PROF2) (i.e. if you had received fees (of bill#456) against 'PROF5' – debit PROF5)	
1	Amount : 2000 Narration : type in the client code,client name,reason for making this voucher. Also type in corresponding Bank Receipt Voucher No. (in this e.g. 51520)	
this pay	ment voucher will reduce your income (the income - that was increased by the excess 2000 - when you made the Bank Receipt Voucher A51520 earlier)	
	Now, the Client also has to be debited create a Journal Vocuher ('K' Type)	
	Credit : DUMMY (always credit DUMMY only)	
	Debit : Client XYZ Amount: 2000	
	Narration : type in the reason for passing this JV, type in the bank payment voucher you passed (in this e.g.: B54123)	
Step 3	Now, goto the Bank Receipt Voucher A51520. This Voucher shows Rs. 2000 as 'On Account' Hit the O key (the alphabet O key), to remove the 'On-Account' tag. (this will then remove the Rs.2000 from the On-Account Register, O/S reports)	
0.0.0	Example C If a client has a credit balance & you want to adjust that credit balance against any new/later bill on that client 10/02/19 (whatever date) you had raised a bill (e.g bill#123) on client PQR for rs. 40000.	
on	12/02/19 (whatever date) Client PRQ pays you rs. 90000 (e.g. voucher no.50259). so, on 12/02/17, client PQR has a credit balance of rs : 50000	
	adjust the credit balance of rs. 50000 against future bill/s on client PQR	
<u>Step1</u> Raise a	new bill on client PQR (e.g. Bill# 345 – dated 20/03/19) for rs. 50000 (or whatever date/amount)	
Step2		
In the B	illing screen - Go to Bill # 345 s. 50000 directly in AMT.RECD field (this bill will now be marked as Paid)	
	her screen – open voucher no 50259 (this voucher may be marked as 'OnAccount' because on 12/02/19 you had adjusted only 40000 against the received amt o D key (alphabet O). this will ask if you want to remove the OnAccount tag from this voucher	of 90000)

INPUTS IN IN	
REF NO.	: Ref No is only for AUDITOR:P-pro64 internal reference. – <i>you may ignore this</i> (<i>Ref No. works like a counter - increments last Ref No+1, if needed, you may skip Ref No.).</i>
INVOICE NO.	: Your Invoice Number. (auto incremented. Last bill date number +1). [<u>Invoice Number</u> & <u>REF No.</u> can be different] (Invoice numbers can be skipped / you can input your own serial / numbering). note: if invoice is saved as proforma invoice, you can convert 'proforma invoice' to 'tax invoice'
	'proforma invoice' will not be included in gstr-1 or gstr-3b but will list in your oustandings/bill registers
INVOICE DATE	: Date of the Invoice.
CLIENT	: Client on whom you are making the Bill. input the proper state BEFORE making bills for that client (even if client is unregistered)
SERVICE TYPE	: The type of Service rendered in this Bill. (Audit, Taxation, ROC, Appeal). (very important) (will determine if GST is to be added in this Bill). [Different "Service Types" are listed in the "Service Type Master" (see page:16)]
BILL TEXT	: Bill Matter (Predefined bill matter can be picked from "Service Type Master"- which can still be edited here).
FEES AMOUNT	: Fees Amount in this bill. (Before GST <u>BUT</u> including OPE {if any}). (<i>i.e. if fees is 10000 & OPE is 500 input 10500 here</i>) [max. fees amt+gst in 1 invoice should be<10 crore]
OPE	: Any Out Of Pocket Expenses on this bill. <i>(if applicable).</i> (This OPE figure is part of the Fees Amount input). <i>(separate input, so OPE can be listed as a separate Register).</i>
GST (n	: GST Amount. (<i>depending of the client state, GST will be auto classified as IGST <u>or</u> CGST+SGST) you may <i>temporarily</i> edit the gst-slab to your specific % (from transactions:gst-slab) ote: change the gst-slab back to 18% (or whatever current %) <i>immediately</i> after you create a 5%gst (<i>or any other %</i>) invoice.</i>
TDS (processed)	: Tax deducted (TDS) by Client on this Bill when payment was Recd. (if applicable). (The figure here is <u>auto posted</u> when a "TDS" Voucher is created from the Voucher screen) (avoid editing/making changes to the auto posted amount here). [directly editing this figure here will affect the outstandings & bill registers NOT Account books].
CREDIT NOTE <u>write off</u>	: The Credit Note/Write Off Amount .Usually used for Writing Off balance due on this bill. (<i>ignore if not applicable</i>) (so, if the balance/whatever amount is written-off, this Bill would NOT appear in Outstandings).
AMT. RECD (processed) [Editi	: Total Amount Received against this bill <u>so far</u> (The figure here is auto posted & incremented when you make a Receipt Voucher & <i>choose-n-pick</i> this bill) (Avoid editimg/making changes to the auto posted amount here) ing this field here directly, will affect the Outstanding & Register only but <u>NOT</u> Account books]
	you.can also directly edit these fields with right click of the mouse BILL NO., BILL DATE, CLIENT, PARTNER, BILL TEXT, FEES AMOUNT, GST, WRITE OFF i.e. : if you want to edit the Bill Date – just right click on the Bill Date, make the changes. : if you want to edit the Client – just right click on the Client, make the changes.

IF LEDGER AND OUTSTANDINGS FOR A CLIENT DOES NOT MATCH

e.g.: Ledger shows 10000 Dr but Outstanding shows 0 or an other amount. (10000 Dr & 0 are just examples...)

(or vice versa)

please read this entire note for full explanation

Let's understand this with an example.

You have raised bill on Dell Ltd. Bill # 98/CON dated 08/05/2024, Total Bill Amount Rs. 10000/-. On 22/06/2024 Dell Ltd. pays you Rs.10000/- against your Bill # 98/CON.

The proper & normal entry procedure in AUDITOR:P-pro64 is:

Make a Bank Receipt voucher from the voucher module.

After debiting the Bank & crediting the respective '**PROF**' head, it will ask the client name & then against which bill is this Rs. 10000/- recd. Select Bill # 98/CON from the Choose-N-Pick option. *(explained in detail in the voucher page)*.

Dell Ltd's account will be credited by 10000 & will be reflected in their ledger.

In the Billing screen, in Bill # 98/CON Rs. 10000/- will appear in "AMT.RECD" field.

(This shows because in Voucher entry you marked Bill# 98/CON against Rs.10000 recd, So "AMT RECD" field in Billing was <u>also</u> auto posted). Thus Bill # 98/CON will show as payment received.

This bill will **NOT** show in outstandings.

The Client's account and the billing section are **<u>both</u>** simultaneously updated.

This is the normal & correct procedure of adjusting bills when client make payment.

BUT INSTEAD OF MAKING THE ABOVE MENTIONED SUGGESTED MODE OF BANK RECEIPT ENTRY...

a] Instead of making an entry in Bank Receipt voucher for the 10000 recd., you go to **Billing** input, select Bill 98/CON and manually key in Rs.10000 (or any other amount) in the "**AMT.RECD**" field (which is usually auto updated when Receipt voucher is made & bill is marked against payment received).

Now, what happens here?

The client's ledger account i.e. Dell Ltd. will NOT be updated since no voucher is passed but the billing section will be updated. Dell Ltd's ledger will show as Dr.1000/- and the outstanding will show Zero (or some other amount).

b] You could have manually edited the "AMT.RECD" field in the Billing module & made it **zero** (or some other amount). the client's ledger will show the proper balance but that bill will show a different Balance/Outstanding amount.

c] *e.g.* You delete/make 0 a Bank Receipt Voucher (e.g.No. 54321 Amount 10000) in which you had marked Bill# 1234 as paid Now, when you delete the Bank Receipt Voucher (No.54321), *-most times-* the "AMT.RECD" field in the Bill No.1234 which showed 10000 as paid **before deletion of the voucher**, will now <u>also</u> be made 0 automatically (*after deletion*), But if it is not made *automatically* 0, a *message flashes*, that you have to manually edit the "AMT.RECD" field in Bill No.1234 & make it 0. If you do not manually edit AMT.RECD of Bill#1234 it at that time, the Ledger will show a 10000 Dr ,but the O/S will show 0 or some other amt.

i.e. the client's ledger will show the proper balance but that bill will show a different Balance/Outstanding amount.

<u>SUMMARY</u>

When you make Bank Receipt Voucher and mark the Bill/s against this payment received, both the Ledger (Accounts) and Billing are updated.
BUT

When the Amount Recd is manually input/edited in Billing module directly in the "AMT. RECD" field, Client's Ledger (Accounts) is not updated.

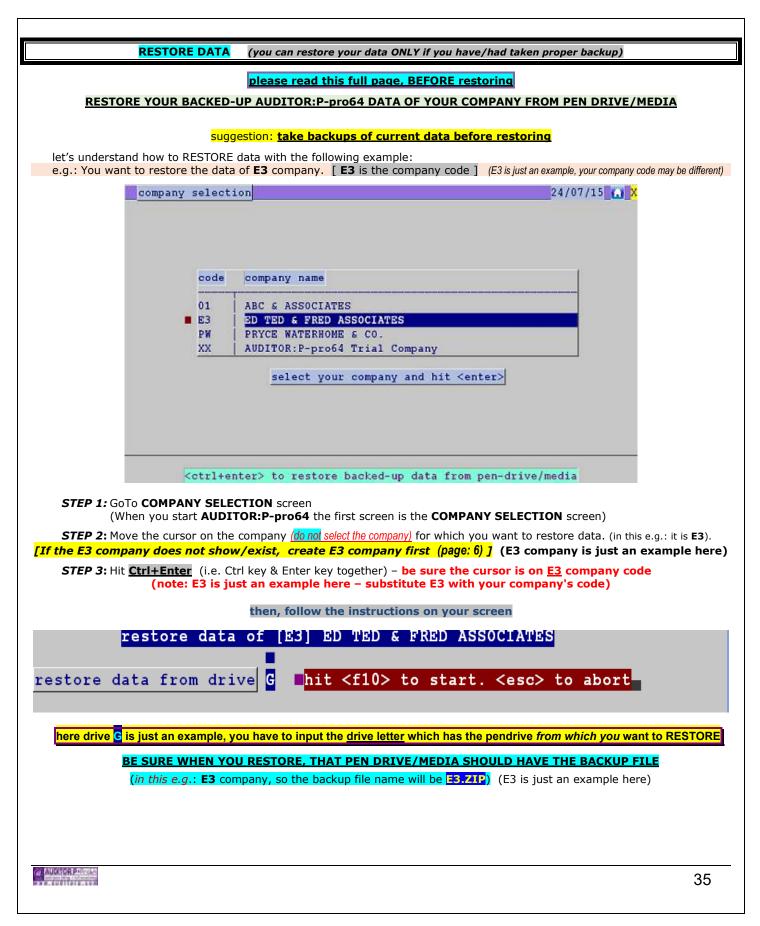

In Reports: The Ledger data is picked from Vouchers file & Outstanding data is picked from Billing file

ALSO READ PAGE # 33

AUDITOR P

[IF AMT. RECD / TDS / PAID / UNPAID AMOUNT IN BILLING/OUTSTANDING/BILL REGISTER/COLLECTION IS WRONG] or [CLIENT LEDGER SHOWS CREDIT BAL.]
 e.g. 1 in Bill no: S/234 dated: 03/10/24 for Client ABC, the TDS shows 3000 or/and AMT.RECD amount shows 25000 (or some wrong figure) whereas actually, the TDS should be 0 (or some other amount) or/and the AMT.RECD amount should be 0 (or some other amount) (S/234, 3000, 25000 are just examples here) 1. Go to Billing (from Transactions) 2. Open Bill No. S/234 dated 03/10/24 (client: ABC) 3. right click on TDS, edit/make it 0 or whatever is the proper TDS amount. Save (edit only if the TDS amt shown was wrong or not proper) 4. right click on AMT.RECD, edit/make it 0 or whatever is the proper amount. Save (edit only if AMT.RECD amt shown was wrong) NOTE: edit/make changes to TDS and/or AMT.RECD only if it is not proper or is wrong
e.g. 2 in Bill no: A/5246 dated: 27/05/2024 for Client XYZ, the TDS shows 0 or AMT.RECD amount shows 0 (or some wrong figure) whereas actually, the TDS should be 1200 (or some other amount) or/and the AMT.RECD amount should be 44000 (or some other amount) (A/5246, 1200, 44000 are just examples here) 1. Go to Billing (from Transactions)
2. Open Bill No. A/5246 dated 27/05/2024 (client: XYZ) 3. <u>right click</u> on TDS, edit/make it 1200 or whatever is the proper TDS amount. Save (edit only if the TDS amount shown was wrong or not proper)
4. <u>right click</u> on AMT.RECD, edit/make it 44000 or whatever is the proper amount. Save (edit only if AMT.RECD amount shown was wrong)
NOTE: edit/make changes to TDS and/or AMT.RECD only if it is not proper or is wrong
e.g. 3 in Bill/Collection/Outstanding, for Client DEF, bill # 890, dated 10/02/24, is shown as paid, whereas actually bill # 890 is still not yet paid 1. Go to Billing (from Transactions) 2. Open Bill No. 890 dated 10/02/2024 (client: DEF) 3. <u>right click</u> on AMT.RECD, edit/make it <u>0</u> or whatever is the proper amount. Save
e.g. 4 in Bill Register/Outstanding, for Client PQR, bill # 243, dated 30/01/24, is shown as unpaid, whereas actually bill # 243 is paid 1. Go to Billing (from Transactions) 2. Open Bill No. 243 dated 30/01/2024 (client: PQR) 3. <u>right click</u> on AMT.RECD, edit it & input whatever is the proper amount. Save
e.g. 5 Client ledger (e.g. client BA123) shows a credit balance (e.g. 124000 cr) & you want to remove the credit balance of that client 1. Go to Vouchers (from Transactions). 2. Create a new JV e.g: V.Type: K Voucher No.: 6349 Voucher Date: 08/12/2024 (Voucher No: 6349, Date: 08/12/2024are just examples here) 3. Debit: BA123 Credit: DUMMY Amount: 124000 Save-this-Voucher
e.g.6 after adjusting voucher amount and/or tds against any bill, you want to edit the voucher amount and/or the tds amount e.g.: in bank receipt voucher # A27134 , you input amount received 10000 & tds rs. 2000, and adjusted it against bill # 1234. (auto TDS V. no. is K582) now, you want to edit amount received from 10000 to 12000 <i>(or 0 or any)</i> and/or edit the tds amt from 2000 to 2400 <i>(or 0 or any amount)</i>
 Go to Vouchers), type V.Type A, V.No. <u>27134</u>. that voucher details will appear Right click on <u>Amount</u> field. edit the amount to 12000 (or 0 or any amount) [note: this is not the TDS voucher or TDS amount] to edit TDS amount, exit bank receipt voucher, now, type V.Type K, V.No. <u>582</u>. Right click <u>Amount</u> field. edit amount to 2400 (or 0 or any amt) Exit voucher screen, goto Billing, open bill # 1234. details of bill#1234 will appear, <right click=""> on <u>AmountRecd</u> & edit it to 12000 or whatever</right>
<right click=""> on <u>TDS-Amt</u> & edit it to 2400 or <i>whatever</i> (voucher No: A27134, K582, amount 10000, Bill# 1234are just examples here)</right>
33

IF		
1.	If during "CHOOSE & PICK" option (from the Voucher module) you have selected the payment made against the wrong Bill n e.g.: 2 Bills of XYZ Co. are outstanding.	10.
	Bill No. Date Balance 1111 21/03/2024 12000. 1112 24/03/2024 10000.	
	XYZ is making payment of Rs.10000. You are entering Bank Receipt vide Voucher 51025.	
	Now instead of marking the payment received against Bill No.1112 you have picked Bill No. 1111. This would mean that Bill No.1112 would remain as outstanding while Bill No.1111 would be marked as paid.	
	Solution: Go To BILLING. Go To Bill No.1111. Right Click on " AmtRecd " Field. Reduce it by the Amount [i.e. Rs. 10000].	
	Go To Bill No.1112. Right Click on " AmtRecd " Field. Increase it by the Amount [i.e. Rs. 10000].	
	Now Bill No.1111 will be Outstanding and Bill No. 1112 will be Paid.	
	{note : Edit the Narration of Voucher (here V.No.51025) as it will indicate that you have received payment against Bill No.1111}.	
2.	If you have selected the WRONG CLIENT when making a Bank Receipt Voucher. e.g.: you have received a payment of Rs. 5000 from your Client: ACC INDIA. But while making its Bank Receipt entry (e.g.: V.No 52102) you have selected by mistake another Client Name: AIR INDIA.	
	Solution: Edit this voucher (here V.No 52102) & make the Amount 0 <i>(i.e. edit it to make the Amount 0)</i> Input new voucher with the proper client.	
3.	After BOOK CLOSURE you want to edit a Bill but the Bill-Date is of closed year period. (Edit is allowed for: Partner / Amt. Recd / Cr.Note) e.g.: You have closed books for 2019-2020. (or whatever year) There is an Outstanding of Client: BIRLA for that year (i.e. 2019-2020). (Bill No: 250/AC dt.: 14.02.2020 for Rs. 2000/-). # Now you want to Cr.Note this outstanding amount of Bill No: 250/AC.	
	f <u>ollow these steps</u> :	
	Input Billing Period: 2019-2020, Then go to Bill 250/AC. Details of that bill will appear, now press Ctrl+F10 The message at the screen bottom will show "Books Closed for This Year". You can edit fields : Partner / Amt. Recd / Cr.Note . Edit where necessary. # (in this case, the Cr.Note field).	
	Effect in Reports: In Outstandings the Bill 250/AC will not appear. NO EFFECT in Accounts as Books is already closed for that period.	
4.	Voucher appears "On Account" even if it is adjusted against bill/s. e.g.: Voucher A56144 is shown as "OnAccount". (In Voucher screen or "On Account" Report). [A56144 is just an exa If it should not be shown as "On Account", because you already have adjusted this Voucher amount against Bills.	mple]
	What To Do? : In Voucher Module, GoTo Voucher 56144, Press 'O' key (Alphabet O) AUDITOR:P-pro64 will ask: Is Any Amount Of This Payment Still "On Account"? Press N	
5.	Bill shows as paid but actually it is not paid / Bill shows as unpaid but actually it is paid. see page: 33	
6.	Corruption Detected step 1 : Go to " Master Files' in the 'Opening Menu " and select ' debug/purge ' step 2 : After debug/repair/purge is complete, go to " Opening Menu ", hit V to verify your data files	
(a.	ADOTOR P-0-01	34

ΗΟΨ ΤΟ	
 DELETE A COMPANY. Please realise the consequences of deleting a Company. All data of the company will be lost. e.g.: To delete company AB (AB is just an example) STEP 1: At the company selection menu. Place the cursor on AB (here company AB is just an example) STEP 2: Press <u>Alt+1</u> (input password) 	
 <u>CHECK WHICH YEAR - BOOKS ARE CLOSED</u> At the Opening Menu, hit the F10 key A box will appear listing all the f.years of which you have closed books. 	
3. PURGE/CLEAN DELETED RECORDS / ENTRIES WITH 0 (zero) AMOUNT Goto Master Files Click on debug/purge	
4. PRINT RECEIPT (to give clients on receipt of payment) In Transactions-Vouchers: Open any existing Receipt Voucher	
 5. <u>CLOSE BOOKS FOR ANY PERIOD</u>. In Reports - Go to Final Accounts Books can be closed for any Date range (i.e. for any period). <u>Read the NOTE displayed on the screen before closing books</u>. Ensure the total of all the opening balances of the Account Heads is 0 (zero). <u>BACKUPS</u> should be taken prior to closing books. (on a separate pen drive/media). <u>what happens when you close books:</u> a) Profit figure is auto transferred to "<u>RESER</u>" Account Head. (<i>RESER is our predefined account head</i>) (you may pass a 'K' type JV - before closing books - to transfer the profit to different partners) [e.g. DEBIT : RESER (our pre-defined account head) <i>CREDIT : PARTNER 1 ACCOUNT HEAD</i> <i>CREDIT : PARTNER 2 ACCOUNT HEAD</i> <i>CREDIT : PARTNER 3 ACCOUNT HEAD</i> <i>CREDIT : I ACCOUNT HEAD</i> <i>CREDIT : I ACCOUNT HEAD</i> <i>CREDIT : I ACCOUNT HEAD</i> <i>CREDIT : PARTNER 3 ACCOUNT HEAD</i> <i>CREDIT : Date and the profit amount, run the 'final accounts' before</i> closing & note down the profit amount } b) Closing balance of Balance Sheet Heads is <i>auto posted</i> as Opening Balance for next year. c) Opening Balance of Profit / Loss Account Head are made 0 (zero). d) Accounts Data of the closed period is Purged. (ledger,bankbook,cashbook of closed year cannot be <u>then</u> accessed (however, you will be able to list/print all Bills, Bill Registers, Outstanding <u>even after</u> closing books) 	l/viewed)
POINTS YOU SHOULD KNOW	
 Ref. No in Billing is for AUDITOR:P-pro64 internal reference. It is just a counter. the counter# can be till 99990 Do not confuse them with Bill Number. If you jump/skip a Ref.Number, it is OK. You can always backtrack to that skipped Ref. Number Codes in Masters and Transactions are for AUDITOR:P-pro64 internal reference. They <u>CANNOT</u> be changed 	١,
3. Deleted entries do NOT appear in Reports. 4. The Profit / Loss amount in Final Accounts is <u>Auto posted</u> to "<u>RESER</u>" Account Head after Book Closure.	
5. Voucher with 0 amount is equal to <i>Deleted</i> Voucher.	
6. This software generates result only of what's input. It does not have a mind of its own. (no AI / ML here)	
AUDITOR P-Prosi-	36

WHAT IS

1. <u>REF NO. in Billing / Code in Masters</u>

It is a short name given to an Invoice / Master. So when **AUDITOR:P-pro64** has to seek any particular data it just seeks for the Ref No/Code. This way the information retrieved is faster. **You do not have to remember Ref Nos/Codes.**

2. UTDS (Unadjusted TDS)

When a client deducts TDS, you have to mark the TDS was deducted against which Bill/s of that client. If you do not mark it against any Bill/s, (you may not know the bill.no then <u>or</u> you may not have raised a bill yet) this TDS amount will be labeled as **UTDS** in Outstanding reports, TDS register & the TDS voucher screen

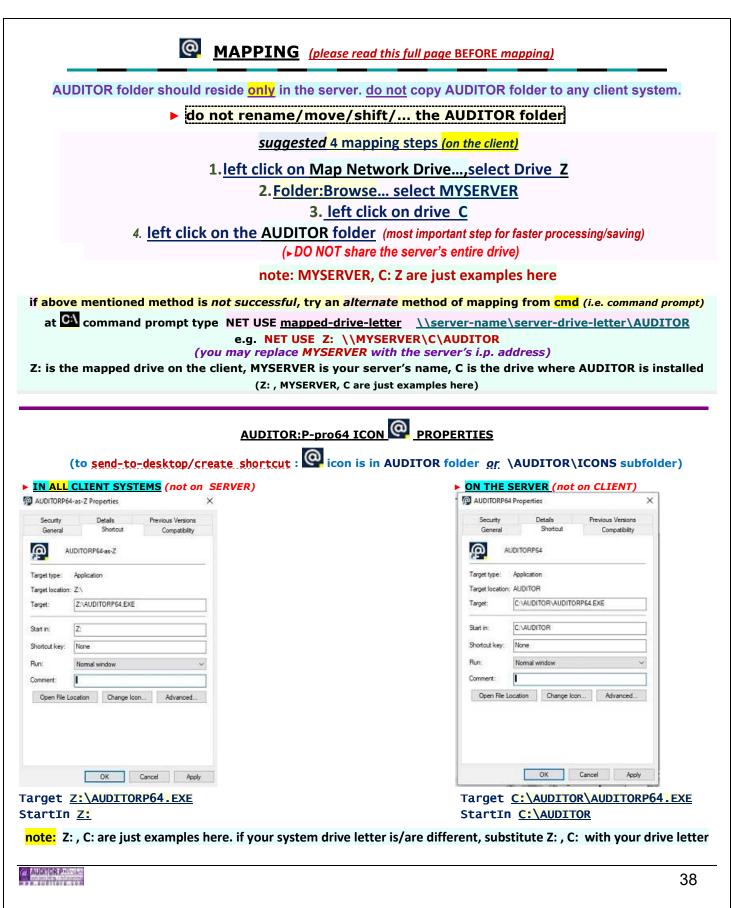

if you had not raised a bill yet when client deducts TDS & then later a bill was raised & you want to adjust that TDS against that bill... e.g.: client ABC has deducted rs. 10000 TDS on 31/3/23 (or any date) (you may/mat not have raised a bill on that client)

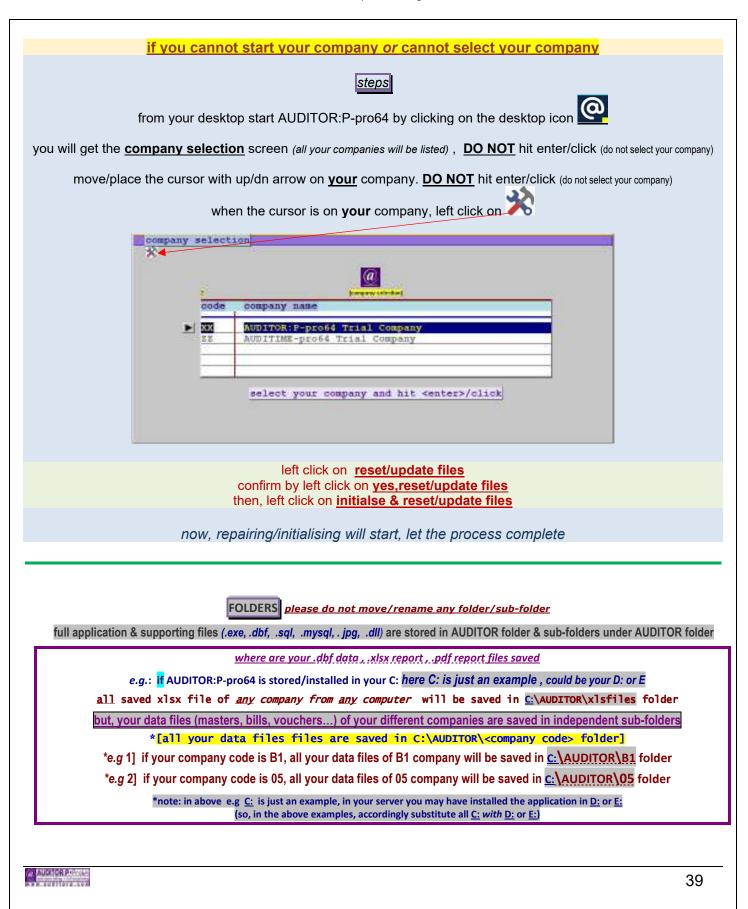

on 31/3/23, you created a TDS voucher (*pg:21*). This TDS voucher (<u>e.g. K345</u>) will be marked as <u>UTDS</u> (as you have not marked it against any bill) on 10/06/23 (any date), you create/input a bill on client ABC (e.g.: bill # 123)

how to adjust thet TDS voucher#K345 against bill# 123 goto voucher K345 – dated 31/3/23 (as per the example) (this voucher will be shown marked as UTDS) hit the **<esc>** key

this will list all bills of client ABC, choose-n-pick the bill/s (e.g. bill#123) against which this tds was deducted

note: 31/03/23, client ABC, TDS 10000, voucher K345, bill# 123 are just examples here)
