@ AUDITOR:P•Pro64
www.auditorp.com

read [A] & [B] & [C] *before* downloading/reinstalling/shifting hard drive *or* upgrading win version...   **print this page**

after copying/shifting/upgrading...DO NOT RENAME/MOVE THE AUDITOR FOLDER or any SUB FOLDERS

[A] RE-INSTALL / DOWNLOAD

if even a single computer in your office/lan can run/is running AUDITOR:P-pro64, *then DO NOT re-install, first read* [E]
if you are changing your hard drive or upgrading win version or shifting AUDITOR:P-pro64 *from one serve to another, first read* [B]

note: if your client system/node/terminal is formatted/upgraded...,you only have to do mapping again *(page:50),* you **do not** have to reinstall
re-install *only* if your server's hard drive is formatted/crashed/upgraded *or* not a single computer can run AUDITORP-pro64

1. *to re-install:* download & save **www.auditorp.com/pro64install.exe** to your desktop/any temp folder
2. click on the downloaded/saved pro64install.exe & input the unzip password **apt64**
3. AUDITORP-pro64 will auto install to C:\AUDITOR folder *(AUDITOR folder will be auto created)*
   (afterwards, you may cut/paste AUDITOR folder to any drive)
4. *(only if required)* restore your company backed-up data from company selection screen *(page:47 of manual)*

[B] UPGRADING WIN VERSION *or* CHANGING/SHIFTING/FORMATTING...HARD DRIVE of SERVER

before upgrading win version *or* formatting/changing drive of server: copy the *existing* full AUDITOR folder *(with subfolders)* to a **pendrive /media**
after upgrading win *or* formatting/changing drive of server: copy back the full AUDITOR folder *(incl. all subfolders)* **from** *that* pendrive / media
if you **copied** the \AUDITOR folder from one drive of server to another drive in same/another server, *after shifting* delete \AUDITOR folder from original *(i.e. before shifting)* server
►note: your **AUDITOR:P-pro64** will be supported/registered/updated by us for your any one *specific* server/computer/location◄

[C] MOVING/SHIFTING AUDITOR:P-pro64 from C drive to D drive of SAME COMPUTER *(or from anydrive to anydrive of same computer)*

e.g. you want to move/shift AUDITOR:P-pro64 from C drive to D drive of the same computer   *(C: & D: are just examples here)*
1. in your server, from MyComputer/ThisPc , go to your C drive, then Cut *(do not Copy)* the full AUDITOR folder *(including all subfolders)*
2. now, from MyComputer/ThisPc , goto your D drive & Paste the full AUDITOR folder *(that was cut in step 1)*
very important ► 3. on your *desktop*, change the AUDITOR:P-pro64 icon Properties (change Target & StartIn from C: to D:) *see page:51*

[D] AUDITORP64.EXE FILE *(or any other)* MISSING/DELETED

download & unzip the latest updates from **www.auditorp.com/pro64gst.exe**
OR
download from **www.auditorp.com/auditorp64.exe** & save the file to \AUDITOR folder *(not to any subfolder)*

[E] LAN / MAPPING *(for mapping& icon instructions: see manual page:50, 51)*

if even a single computer in your office/lan can run AUDITOR:P-pro64, *DO NOT install* AUDITOR:P-pro64 *in your node/client/terminal*
AUDITOR:P-pro64 should be installed only in the server & nowhere else you only have to do the mapping *(see manual page:50, 51)*

with proper *mapping* , no matter from which client/system anyone makes entries, all data will be saved *only in the server*
►if you copy *or* install AUDITOR:P-pro64 in more than 1 computer, data input in computer A may not reflect in computer B◄

[F] DESKTOP ICON *(also read manual page:51)*

1. in MyComputer/ThisPC goto/click the drive where AUDITOR:P-pro64 is installed/stored
2. click on AUDITOR folder *(to open)*, now inside AUDITOR folder, click on icons sub-folder *(to open)*
3. in \AUDITOR\icons, right click on icon @ *(AUDITORP64),* **send to desktop** (create shortcut)
4. on your desktop, right click on @ ,then input the appropriate Target & Startin
e.g. if AUDITORP-pro64 is installed in Z: then Target will be Z:\AUDITOR\AUDITORP64.EXE
Start in will be Z:\AUDITOR

(Z: is just an example here, you have to inout the proper drive letter where your AUDITORP-pro64 is installed)
